

UKSPF Training Grant Case Study:

Nadach Property Services

Based in Tattenhall, with a team of engineers covering the UK and delivering a range of services from boiler installation and servicing through to large scale commercial gas and electric system design. The business specialises in design and installation, central heating repairs and maintenance, heating system upgrades, boiler replacements as well as energy-saving installations and system design.

West Cheshire & North Wales Chamber supported the business to apply for a UKSPF funded training grant to upskill two members of staff by completing the Level 3 Award in the Requirements of Fire Detection and Fire Alarm Systems for Buildings BS 5839-1:2017

This training will help the business to compete for new tender opportunities and expand the service that they offer to existing clients. Whilst this is a non-mandatory qualification, this enables electricians and electrical contractors to be upskilled in the knowledge of design, installation, commission and maintenance of non-domestic fire detection and fire alarm systems and offers a new diversified service to Nadach's existing clients.

In addition to accessing the training grant, the business has been introduced to their local college and is collaborating with the Cheshire & Warrington Local Skills Improvement Plan and ECA along with other businesses and stakeholders with the aim of increasing the number of qualified electricians available locally.

How has the training grant benefited you?

“As a growing SME with a multi-trade delivery framework within the property sector, NADACH Property Services Ltd. has been hugely supported by The West Cheshire & North Wales Chamber of Commerce. Their knowledge and advice across training and staff development has been instrumental in allowing our colleagues to develop both to support the business and for their own self-development and career aspirations, directly leading to better remuneration for our local staff and new business development opportunities for the wider business”

- **Nathan Daniels, Nadach Property Services**
